

## Call for submission of unpublished manuscripts for publication in the thematic issue

### “Nursing and the Sustainable Development Goals (SDGs)”

The **Brazilian Association of Nursing and the Brazilian Journal of Nursing** invite the national and international scientific community to submit manuscripts in Portuguese, English or Spanish to the thematic issue: “**Nursing and the Sustainable Development Goals (SDGs)**”.

**Target Audience:** Professionals in the health, humanities and related áreas.

**Context:** The 17 SDGs, defined by the UN in 2015, seek to address global challenges such as health, poverty and climate change. The crucial role of nurses in promoting global health makes their contribution to these goals essential. As we approach 2030, this issue seeks to highlight innovative approaches to the SDGs in nursing.

**Article categories** - original articles, systematic and integrative reviews, reflections, experience reports and case reports.

**Analysis process** - Pair and blind.

**Submission period** – September 15, 2023 to January 15, 2024.

**Announcement of the assessment decision** - rolling flow from 2024.

**Publication forecast of approved articles** - Continuous flow from 2024.

**Platform for submission** – <https://mc04.manuscriptcentral.com/reben-scielo>

**Preparation of articles** – Strictly follow Instructions for authors available at <http://www.scielo.br/revistas/reben/iinstruc.htm> or <http://reben.com.br/revista/>

**\*\*Note:** When submitting, mention in the Letter to the Editor the destination for the thematic issue on Nursing and SDGs. Also indicate which SDGs your research addresses.

**Submission languages** – Portuguese, English or Spanish.

**Publication languages** – Portuguese or Spanish and English.

Participate and enrich the debate on nursing's vital contribution to the global challenges of our time!

### REBEn supports and is aligned with the Open Science policy

**Costs for the author** – <http://www.scielo.br/reben> or <http://reben.com.br>
